

Folding Door System

Folding Door

Space-efficient and stylish, these doors consist of multiple panels that fold and stack neatly against one or both sides of the door frame when opened, creating a wide and unobstructed opening.

Space Saving

Folding and Sliding doors can be moved around in different ways and organised in compact spaces such as behind a wall.

Flexibility

With different systems, these doors can be custom made into different layouts, functions and sizes, fitting into any space or area required.

Maximize Space

Expand the area and connect between two spaces by opening the movable doors.
s and space needs.

Low Maintenance:

Folding doors are easy to clean and require little upkeep due to their design and durable materials
